

2025 Fall Ball Program

The Bombers Baseball Academy offers a fall baseball program which focuses on instruction and player development. Our Fall Ball program is available to players league age 8 through 14.

Schedule: The Fall Ball program begins after Labor Day and concludes the weekend of November 1/2. Each team will practice **at least** twice per week (one weekday and one weekend practice).

Projected tournament weekends:

- September 20-21
- October 4-5
- October 18-19
- November 1-2

Program Overview: The Bombers believe that kids should be allowed the opportunity to play other sports during the “off season.” Accordingly, we carry a larger roster size for each team during the fall season to accommodate players’ commitments to other fall sports. The fall teams will be comprised of players from the spring teams as well as interested players who have the potential to compete at a high level in travel baseball. We will have a tournament roster of 12-13 for players who are primarily playing baseball in the fall and will attend the tournaments. We will also have 4-5 practice players who will practice with the team to maintain their baseball skills, but not attend tournaments unless needed as a fill-in player.

Estimated Cost: Tournament player—\$1200, Practice player—\$600.

Interested players must attend the tryout, which is scheduled for Sunday, June 8th the College of Marin baseball field. There will be a \$20 try-out fee to offset the cost of evaluators and field rental. While we encourage all interested players to attend the June 8th tryout, we do expect to provide a makeup tryout date the following week for those with conflicts.
